

# STEPHANIE CLAIRE CURTIS

## Web Designer & Front-end Developer

I am a creative who seeks new information. I really like to understand the complete process for creating Apps and Websites from Design straight to Front End Development. I have an eye for detail and practice design techniques and rules. Also, I like working in a team, you'll learn faster and much more. I have produced close to five hundred websites and drafts for small businesses throughout Queensland.

### HOBBIES AND INTERESTS

**A Creative** | My anchor to myself as a happy human I would say is my creativity from sketching to developing a map in unity to something completely different.

**Plants** | My second hobby is gardening I love learning and growing different cultivars & wild varieties of fruit & vegetables, to then use them in the kitchen, for delicious meals & preserves.

**Cooking** | Lastly is cooking. Truly it is something that makes me excited I cook every night & I only use fresh ingredients bought at the grocer or grown at home.
